Subject: Microsoft suit

Dear Attorney Ashcroft: First, thank you for being the wonderful AG you are! We're so thrilled you were confirmed! We love the entire Bush administration. I think most citizens knew that God couldn't possibly allow any more slime in the White House. Second, I just received an email concerning the Microsoft "trials" and would like to add my voice to the others. Without Microsoft, I don't think any of us "ordinary folk" would EVER have been able to learn how to manipulate a computer. If anything, Bill Gates should be thanked, not sued. Jealousy always raises it's ugly, evil head when any entrepreneur is successful. He created something fabulous, useful, and easy for the masses Gates should be rewarded, not penalized! Let's stop wasting taxpayer money and leave him alone to create something else we can all enjoy. Thank you and God bless you richly. Vicki Corona
